

LEAH G. — 2026 Firefighters Fighting Cancer Beneficiary

Red Knights MN Chapter 4 is honored to support Leah G., a devoted wife, mother of three, and preschool teacher whose compassion and resilience embody the spirit of our fire service family.

In September 2025, Leah was diagnosed with breast cancer. She faced 16 rounds of chemotherapy with remarkable courage and underwent a double mastectomy earlier this year. Her next phase begins in May with radiation treatments, followed by reconstructive surgery later in the year.

Leah's connection to the fire service runs deep. Her stepfather, a longtime Red Knights MN4 member, has made her part of our extended firefighter family. Supporting her is not only an act of care — it reflects the brotherhood and sisterhood that define who we are.

Despite the challenges ahead, Leah continues to show extraordinary strength and hope. Her determination reminds us that the fire service spirit lives in every act of perseverance and every person who refuses to give up.

Red Knights MN4 proudly stands beside her on this journey.

Together we ride, together we fight, together we make a difference.
